NEW 1957 IRIS

by MRS. DOUGLAS PATTISON

That Mrs. Pattison names and releases an Iris is recommendation enough for anyone; for there is no better judge of iris.

GOLDEN LANCER (Pattison)—Huge, full and of ideal proportions; a cool, clear sulphur yellow, lightly blazed white; this flower will make a fine addition to your garden. Growth habits, stem and plant proportions are ideal. The clear color really carries, yet its cool quality compliments other colors rather than clashes as do the heavy, hot yellows.....\$15.00

by C. G. WHITE

For years all fanciers of oncobreds eagerly await Mr. White's introductions.

AL SIRAL (White)—Standards smoke grey marked umber and splashed violet, falls smoke gray veined maroon with suggestion of purple signal. Fertile 16".....\$15.00

MARA OF BENARES (White) — A vigorous golden brown bicolor oncobred heavily splashed throughout in onco fashion. Fertile 16".....\$10.50

KING HENRY (White)—A deep toned oncobred designed in deep cool reds with ground of rosedust and the entire flower veined plum to port wine. Fertile 18".....\$10.00

by SANFORD BABSON

Mr. Babson continues his fine Iris hybridizing. From his new seedlings we offer

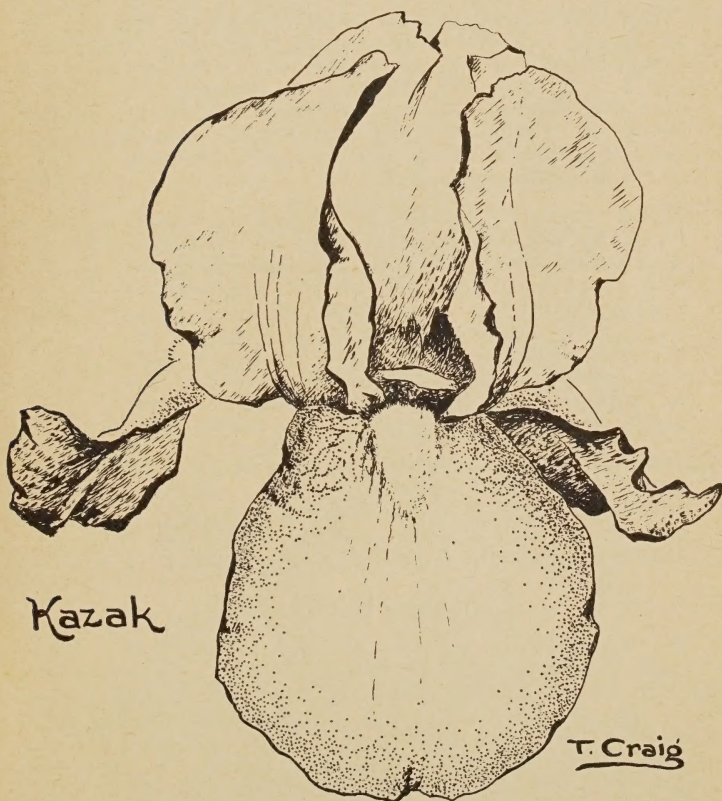

RATTAN (Babson)—A fine formed flaring flower on on excellent, tall, wide-branched stems. It is a warm glowing flower of old gold with a cool majenta blaze on the falls.....\$15.00

by the CRAIGS

We are pleased to offer you this season what we consider the finest hybrids in our many years of breeding. Ivan, Timmy and Kenny offer you varieties that will rouse more than one twinge of envy from older breeders—be consoled, I am one of your number.

CLEAN SWEEP (Craig)—CLEAN SWEEP was the finest white Iris I saw this season. The individual flowers are of top quality, very ruffled and of heaviest substance. The 40" wide-branched stem is perfect, the whole plant proportion being ideal. Great vigor, immensely floriferous.....\$15.00

DRAGO (Timmy Craig)—This bright deep red Iris is very smooth and full with no haft markings. The small cold blaze continues into beard tip making it appear to be a blue bearded red. Vigorous plants 30".....\$15.00

KAZAK (Craig)—A huge full yellow plicata with border of Kazak or near maroon; it's the largest, fullest, finest and brightest flower of this color pattern. The wide branched stem is perfect, the flowering period exceptionally long and heavy; plant vigor is ideal.....\$15.00

EBBTIDE (Ivan Craig) — Broad, heavy textured, and waved—the flower of Ebbtide is all quality. A green reverse bicolor, it could be called without too great a stretch of the imagination. For, it has more green in its makeup than any really handsome Iris I've seen. It's a pale chartreuse yellow, with the center of the falls cool and near white. Released in a hurry for the green fanciers, only a few plants exist. Complex pedigree from greenish yellows and whites of plic. origin plus trace of onco and char-maize. Net \$25.00

HEAD HUNTER (Craig)—This huge full red bitone has mineral red standards and deep tapestry red falls bordered mineral red. Mrs. Pattison and Mr. Slamova have seen this Iris and both urged me to release it. I think you will like it too.....\$15.00

LOVE POTION (Craig)—A bicolor flower of honey-caramel, with encircling falls of rich maroon. Frank Winter picked it as the finest seeding at the '56 convention and Tell also singled it out for praise. It's a warm glowing flower.....\$20.00

PURE VIOLET (Kenny Craig) — A year ago last fall Kenny brought for my approval a wonderful, smooth, big, novel, orchid-violet Iris from his seed bed, where it made a stunning clump. He's been so busy digging, dividing, and propagating it since, we can't be sure it will always bloom twice. We do know he has an immensely vigorous very smooth Iris in a novel rosy violet color, that should prove fine in warm sections of the country. So for those gardeners and all Kenny fans, here it is.....\$10.00

STEEPLECHASE (Craig)—This Steeplechase blue flower carries the rich and intense color of a bunch of violets, and it's almost as fragrant. It is exceptionally smooth and full formed and possesses the heaviest substance. In warm climates Steeplechase flowers not only in spring but heavily through fall and winter. It is the first top quality blue with abundant reblooming habits. 40".....\$15.00

TISTOPS (Craig)—A flower of exceptional quality, Tistops has the heaviest substance of any Iris I know. With ruffled flaring form and unbelievable smoothness it's an Iris to covet. French lilac dominates the many colors playing in this blend. In the standards are hints of burgundy, lavender and rose; in the falls java brown is washed over the smooth hafts and continues lightly along the edges of the falls. As #55-12 Dave Hall, Dr. Durrance and Everett Long expressed special interest in this flower. 36"....\$25.00

ZOMBIE (Craig)—This huges full flaring flower glows with a richness that makes you call it a red rather than a black Iris. The color is actually close to portwine but a shade darker. It is my first choice to date of all selections from our "red" seedbeds.....\$35.00

SURPRISE PACKAGE

We want you to try more of our introductions. Look through the main body of the catalog for originations by Pattison, White, Babson, Hinkle, Buck and the Craigs. Make up a long list of varieties you would be interested to try; I will select from your list and do my best to send a surprise package that will more than please you for whatever amount you wish to put into a collection, \$5.00, \$10.00, \$25.00, or \$50.00. If you pick enough for us to choose from, your satisfaction guaranteed.

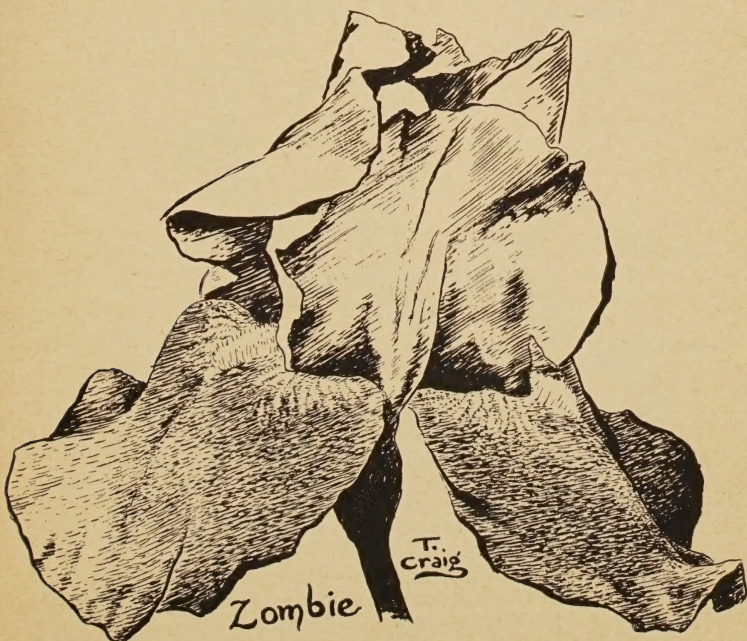

COLLECTIONS—See our offers on enclosed order blank. Also see advertisements in classified sections of *Popular Gardening and Flower Grower*. Or buy direct from list and take discounts offered on the blank.

IRIS

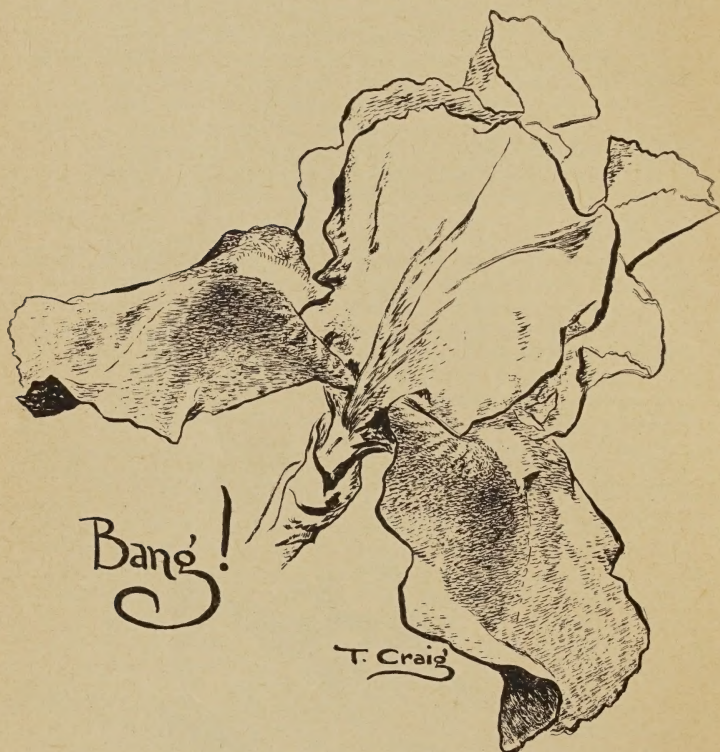

This little catalog lists most of the finest bearded Iris (470) and most of the finest daylilies (672) now in commerce. Only selected novelty Iris are placed in the main body of the catalog. Standard Iris varieties are printed on the back of the enclosed order blank where you may check them to make up your orders. Our collections too are limited because of space: see offers on back of order blank.

We have huge stocks of plants; list lots of extras or substitutes and receive real surprise packages for orders. At least 50% extra given on all orders except collections and varieties marked net. *Twice blooming.

ABOUT THIS CATALOG

Thanks old friends, and new ones too, for waiting for this tardy catalog. We have plants and offers worth waiting for.

Never before has such a fine collection of daylilies and bearded iris been offered anywhere. Unbelievable progress in our breeding programs of daylilies and iris took all our energy through the peak of bloom. From carefully planned crosses, literally millions of hand pollinated seedlings flowered for the first time. To be re-evaluated were thousands of top selections from acres of seedlings flowered last year. Just registered are the best and most distinct of these. Without delay, though no more than 10 plants of some of these varieties exist, we introduce them in this catalog. Progress is rapid; few seedlings or commercial varieties seen 4 or 5 years ago continue to interest us. We want our introductions in your gardens. We give you every chance to put them there. See offers on page 4 and on order blanks.

DAYLILY INTRO

We want you to grow our new varieties; so our prices are low on introductions this time. Our seedbeds are loaded with quality plants. They belong in your garden. We expect to sell out of

by Mrs. DOUGLAS PATTISON

Mrs. Pattison has grown and hybridized fine daylilies longer than anyone I know. She is so critical of her own seedlings, here is her first formal introduction.

SPECTACULAR (Pattison)

Light yellow with spectacular brilliant maroon eye, this fine flower seems to have all good qualities. It blooms continuously for many months, and it's a fine grower. Ev. 36". Early April & Re.

\$15.00

by the CRAIGS

APRIL GOLD (Francis Craig) Large full long-lasting lemon flower
tinuous profusion on multiple-branched stems. First early and
period.

ARABIAN (Frances Craig) The smooth rich maroon red flowers with
brass throats are borne on 3' wide-branched stems. A classy flower.

AWAKE (Timmy Craig) Huge ruffled flat flowers with a big corolla
masses on tall wiry stems. A larger, broader, richer, longer
Flamboyant.

BARBARIAN (Kenny Craig) This is a huge plant with 4' wide-branched
with full flat flowers of apricot, or as the chart says, saffron maroon.

BURNISHED (Craig) This large brass yellow flower of elegant graceful
tough weather resistant texture is borne on 20" wide branched stems
large flowered dwarf.

CHINA BOY (Craig) A reverse bicolor with complex pattern. Petal
sepals—nugget bronze; the same color forms a target ring around
Sharp, attractive pattern—wide branched 26" stem—E., Re.

We include a gift with each order. List many gift suggestions and we'll try to please you. We may be sold out of your first gift choice. If substitutes are acceptable it allows us to be even more generous.

SELL-OUT BARGAIN COLLECTION

We plan to point our energies toward hybridizing better Iris and Hems. This means reducing stock of standard varieties. Here's over 200 kinds, cross out all you grow, leaving at least 40 names. Send us \$5.00 and we'll send you at least 15 of them. Or choose at 70c each, 10 for \$4.50.

COLLECTIONS

- #1. One from each group \$25.00 (name an alternate in each group and if we have to substitute we will do so from a higher price bracket).
- #2. One from groups 2, 3, and 4, \$12.50 (name alternates as above).
- #3. Make your own collection. Decide what you wish to spend and then pick from our general list (no net items) several times that value. We will make up a collection from these at least 50% over what you pay. We have plenty of plants but are short of a few varieties. By allowing us some choice, too, we can give you greater value. This little catalog is too crowded to have room for all the collections we would like to offer. Make your own this time and see how it works. Breeding better varieties interests us more than growing them. Your past orders have been most welcome; for, without them we could not have carried on our work. We hope you will find plants in this catalog to interest you; we have finer varieties each year. We will do everything we can to surprise and please you with your new orders. We certainly have the plants. Do make it easy for us by listing many gift suggestions and alternates. Arrange the varieties alphabetically, the iris and daylilies separately. This speeds order filling, and all savings of time, correspondence, and catalog cost will be passed on to you. We neither expect nor will take large profit from our work. Place an order as we suggest and we'll show you.

This catalog is brief and more simple than planned. For, we wanted to hurry it to you. Use it until we have more time to prepare a more elaborate one next season. We start shipping immediately and will continue as long as orders come in.
